

MAKING LETTER SEQUENCE FLIP BOOKS

Find the component labeled Letter Sequence Flip Books (6 sheets 8 1/2 x 11, 1 sheet 8 1/2 x 5 1/2). There will be 26 books when you have completed making this component; one book for each letter of the alphabet. Each book has two pages. The first or top page is the smaller of the two pages. The character on the smaller page is the first writing stroke of the letter. The larger page has the complete letter print on it.

ASSEMBLY INSTRUCTIONS

1. Cut out the pages for each book.
2. Place the smaller page on top of the larger page so that only the first stroke of the letter is visible. Tape (use about one inch of Book Tape) the pages together, so that when the top page is flipped up, the complete letter is visible.
3. Store in Letter Sequence Flip Book box, 3 x 5 1/4 x 1 1/2.
4. Repeat this process until each book is made.
